

## **Karin Löwhagen**

**Covid-19 pandemic – What have we learned in terms of ICU treatment and how did we come out on the other side? How to lead and prioritize when resources are limited and conditions are changing.**

A lecture on how intensive care units and hospitals in Sweden managed and handled the Covid-19 pandemic. Data from the Swedish ICU registry and clinical examples from a Swedish ICU. Short on ventilator treatment and high flow nasal oxygen treatment. And also, reflections on how leadership matters in times of crisis.
