

## **Helen Wilson**

### **Case-Based POCUS in ICU Patients Lecture Summary/Learning Objectives**

- Delegates will learn how to visually recognise common POCUS findings
- Delegates will learn how to form differentials for these common POCUS findings
- Delegates will learn how to logically approach cases with these common POCUS findings
- The lecture will use 3 - 4 case examples of common emergency presentations to help guide the audience through interpretation of the visual findings and how to proceed with each case in light of their findings
