

Ana Smajlović

DMV

Clinic for Surgery, Orthopaedics and Ophthalmology, Faculty of Veterinary Medicine,
University of Zagreb, Croatia

After graduating from the Faculty of Veterinary Medicine in Zagreb in 2018, I worked on two European projects (Horizon 2020: BIO-CHIP and OSTEOproSPINE), as a professional associate within the Clinic for Surgery, Orthopedics, and Ophthalmology. From 2021, I am employed as teaching and research assistant at the Clinic for Surgery, Orthopedics, and Ophthalmology of the Faculty of Veterinary Medicine in Zagreb, and I am currently focusing on my PhD. My areas of interest include veterinary anesthesiology and emergency and intensive veterinary medicine.
