DMV

Clinic for Internal Diseases, Faculty of Veterinary Medicine, University of Zagreb, Croatia

I graduated from the Faculty of Veterinary Medicine at the University of Zagreb in 2017, where I have been working at the Clinic for Internal Diseases ever since. From 2020-2023 I undertook a neurology residency of the ECVN at Hannover, Germany. I am currently focused on finishing my PhD. My main interests in veterinary medicine include neurology, especially epilepsy and inflammatory CNS diseases. Emergency neurologic presentations (like status epilepticus or increased intracranial pressure) also interest me which is why I am especially enthusiastic about being a part of the LOC for the upcoming EVECC congress in Dubrovnik.
