

Petra Dmitrović

DMV, PhD

Clinic for Surgery, Orthopaedics and Ophthalmology, Faculty of Veterinary Medicine,
University of Zagreb, Croatia

I graduated from the Faculty of Veterinary Medicine in Zagreb in 2015 and kicked off my career at the Clinic for Surgery, Orthopaedics, and Ophthalmology as a professional associate in 2016. The following year, I transitioned to a teaching and research assistant role while enrolling in a doctoral program. From 2019 to 2022, I completed my residency in anaesthesia (ECVAA) at the University of Liège, Belgium. After returning to my university, I took on the role of leader of our anaesthesia team. In 2023, I earned my Doctor of Science degree, which advanced me to the position of senior teaching and research assistant. Currently, I am focused on passing my board exam and hopefully becoming a European specialist in anaesthesia. Alongside anaesthesia and analgesia, my interests include emergency veterinary medicine and intensive care, as well as research and teaching.

My dream is to advance not only veterinary anaesthesia but also intensive care and emergency medicine in Croatia. To that end, I became a licensed RECOVER instructor in 2022, passing on knowledge through in-house training. I have also held multiple anaesthesia workshops in Croatia. Recognizing the value of continuous learning and improvement, I am thrilled to have the opportunity to host the 22nd EVECC Congress where we can continue sharing knowledge, experiences, and positive vibes – something this congress is always rich in. Therefore, on behalf of the LOC, I would like to wish you all a warm welcome to our beautiful and historic city of Dubrovnik!
