

## **Tommaso Rosati**

**ECC Year-in-Review: part 1 | *Simon Cook & Tommaso Rosati***

**ECC Year-in-Review: part 2 | *Simon Cook & Tommaso Rosati***

These sessions will explore the most exciting and impactful literature in the field of small animal emergency and critical care from the preceding 12 months. Sessions are designed to review articles that shed new light on the understanding of the pathophysiology of relevant clinical conditions and advancements in clinical treatments. The discussion will be led with a critical appraisal approach to the selected articles and ensure evaluation of their impact and implications. The primary focus will be veterinary literature, but human landmark publications will also be covered.

### **ICU design | *Tommaso Rosati & Alessio Vigani***

Designing a modern intensive care unit (ICU) involves optimizing patient care, staff workflow, and safety. Key features include adaptable bed spaces, advanced monitoring systems, infection control measures, and natural lighting. Ergonomic layouts enhance efficiency, while integrating telemedicine and smart technologies supports decision-making. Collaborative spaces foster teamwork, improving outcomes in critical care.

### **ICU design Panel | *Tommaso Rosati & Alessio Vigani***

Q&A on design, shift plans, hygiene protocols, and IT integration of a modern small animal intensive care unit.
